### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Michael Hamlin (Reg. No. 54,149) on April 5, 2005.

The application has been amended as follows: Claims 19-35 have been cancelled.

### ***Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance: The claims are allowable because prior art fails to teach a razor with an outer cutter, primary under cutter, and secondary under cutter, wherein the under cutters are mutually interleaved and reciprocate relative to one another as set forth in claim 1.

Regarding claim 1, Klein (6,151,780) discloses a shaving apparatus comprising: an outer cutter (13) having a plurality of apertures, an under cutter assembly (2) adjacent to said outer cutter (13); and a motor (11) for reciprocally moving said under cutter assembly (2) in a reciprocation direction; said under cutter assembly (2) comprising two under cutters (FIG 12). However, Klein fails to disclose the blade elements of the under cutters are interleaved. In addition, Klein discloses the primary under cutter is driven by the motor, but fails to disclose the secondary under cutter is

mounted for movement in response to movement of the primary under cutter as set forth in claim 1.

This reference by itself or in combination with the other prior art cited fails to teach the claimed invention set forth in claim 1.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Plevyak et al (5,131,147) and Peterson (2,590,452) disclose razors with an outer cutter, an under cutter assembly, and a motor.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carolyn T Blake whose telephone number is (571) 272-4503. The examiner can normally be reached on Monday to Friday, 8:00 AM to 5:30 PM, alternating Fridays off.
